WORDS FROM THE CHAIRPERSON

For more than two decades, United College (UC) has been a leader in delivering cutting-edge, challenging, and empowering university education. I extend an invitation to all aspiring students to join in this wonderful tradition. UC is primarily a management college affiliated to Tribhuvan University (TU) that offers undergraduate and graduate degrees. Students are prepared to be responsible managers and leaders by the College.

We also provide students with opportunities to be actively engaged in the institution. Student clubs like Toastmasters, Cultural, and Leo Club are some of the many such opportunities where students represent fellow students and maintain a close liaison with the College Administration. Here, we prepare graduates for every academic career and life's challenge; we impart knowledge, wisdom, subject-specific skills, transferable skills, and overall understanding needed to address real-world challenges.

Over the past year, we have been fortunate to achieve significant milestones, including the successful launch of the First and Second

United Luminary and the inaugural issue of the *United Journal of Interdisciplinary Studies* (UJIS), which is a peer-reviewed publication. Additionally, we signed a Memorandum of Understanding (MoU) between United College and Our Lady of Fatima University (OLFU) in the Philippines.

We only acknowledge what we have, embrace our commitments for the future, and honour every promise we make. Our delivery on commitments has been commendable. It is evident in our empowered students—the United College Alumni have achieved highly. Many of them are successful professionals in their selected fields of interest.

They are among the well-educated, diligent, honest, and responsible citizens of the nation in this generation, leading positive changes, transformation, and innovation. I invite you to be part of this glory. Choose UC, get involved in its activities, and excel!

I look forward to welcoming everyone.

Dripa Chamling
Chairperson

MESSAGE FROM THE FOUNDER DIRECTOR

United College (UC) has been a leader in Nepal's university education sector for over 23 years, teaching students to pursue excellence through discipline and dedication. It has successfully equipped the adolescent girls and boys with pragmatic knowledge, skills, and attitudes they would need in life, at college, and work, to properly navigate the fast-transforming world around them. Our experienced faculty members, with support from class representatives and staff, use the latest pedagogical methods and tools to build a collaborative learning environment and show the students various pathways of becoming productive members of society.

Considering the well-being of students in their transition from school to college, we have safety measures in place, such as bag checks, motorcycle permits, and after-college watches. These measures have been used to cultivate good habits and discipline among students without constraining their freedom to make choices and learn from mistakes. Additionally, we are always working to create a congenial environment that adjusts itself to meet the evolving needs of our students.

To ensure that every student has equal access to education and support, we offer customised practice sessions and programs such as remedial care classes, tutorial classes, and faculty-specific counselling.

We value open communication and collaboration with students, parents, and teachers while identifying areas for improvement and enhancing the overall support system for student learning. By prioritizing feedback and implementing changes, we demonstrate our commitment to

providing high-quality education to address the diverse needs of our students.

At UC, we recognise the importance of keeping up with the rapidly evolving digital landscape to prepare our students for success in the modern world. Our digital library, up-to-date computer labs, multimedia, and idea hubs, including the United Center for Entrepreneurship, Innovation and Incubation (UCEII), equip students with the skills and knowledge they need to navigate today's world, which is increasingly shaped by technology. We, therefore, strive to provide students with cutting-edge technologies and resources so they can handle their challenges and opportunities of the future. Beyond academics, our students learn to excel as problem-solvers, tackle global challenges, and develop a sense of responsibility to contribute to the well-being of human society. Since our

inception, we believe our commitment to excellence in education has produced civilised humans and future leaders. The UC motto, "Education, Civilisation, Service," has guided our mission of transforming the lives of the Nepalese students all along, even in the challenging times of the global pandemic and wars in recent years. So, let us invite you to visit UC and see what we have on offer. Whether you decide to join UC or not, we wish you all the best in your future endeavours!

Sincerely,
Nara Hang Rai,
College Executive Committee
Chairperson

WELCOME MESSAGE FROM THE **ACADEMIC DIRECTOR**

I warmly welcome prospective students to the Management and Information Technology (IT) programs at United College (UC). Over the years, UC has steadily grown into a leading destination for students who aspire to pursue higher studies in Business Management and IT Applications, preparing to become future bankers, administrators, entrepreneurs, business leaders, and IT professionals.

We are committed to assisting our students shape their own future, reach higher levels of academic excellence, and expand their personal and professional opportunities. Guided by our values of integrity, innovation, and lifelong learning, we prepare students to understand, contribute to, and succeed in a rapidly changing world.

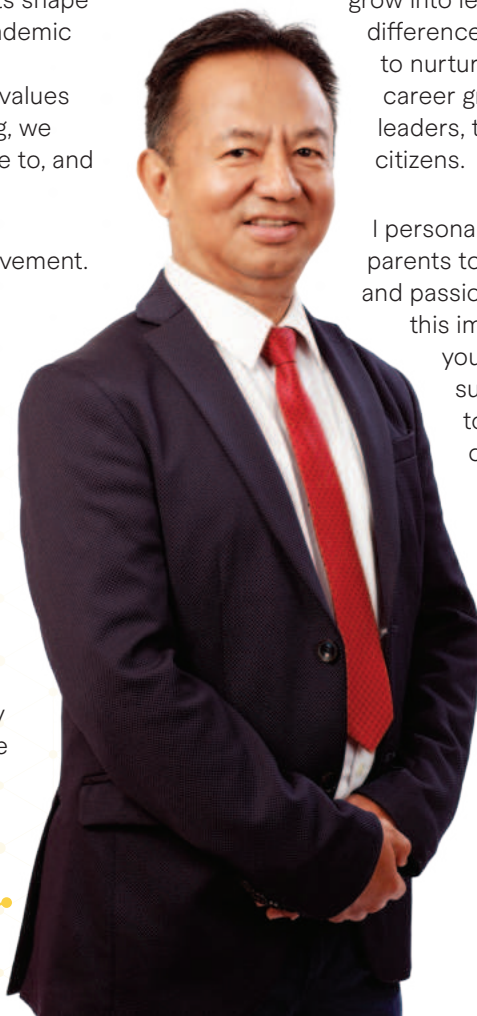

Our promise goes beyond academic achievement. We believe education should empower students to develop the knowledge, skills, and confidence needed for success and leadership in the creative and interconnected 21st century economy. We provide a vibrant, friendly, and inclusive learning environment where every student is valued as a unique individual. We are here to support you throughout your journey, ensuring you have the guidance and resources you need to excel.

Our small class sizes, ideal student–faculty ratio, innovative teaching methods, and use

of modern technology create frequent and meaningful interactions between faculty and students. This supportive approach helps students achieve stronger academic results while also encouraging critical thinking, creativity, and collaboration.

We believe that when students are supported, empowered, and given the right opportunities, they grow into leaders and innovators who can make a difference both locally and globally. Our mission is to nurture each student's academic, personal, and career growth until they graduate as confident leaders, thoughtful thinkers, and responsible global citizens.

I personally encourage prospective students and parents to visit UC and experience our engaging and passionate community for themselves. At this important stage in your life and career, if you want an institution that is dedicated to supporting your dreams and assisting you to achieve them, United College is the best choice.

Dr. Kabiraj Bantawa, PhD (Physics)
Academic Director

MESSAGE FROM THE PRINCIPAL

United College (UC), located at the Education Hub of Lalitpur Metropolitan City, Kurnaripati, has been a renowned Center of Excellence for Learning since its establishment in 2002. For twenty-three years now, the UC-flame of education has been igniting the hearts and minds of thousands of our Graduate and Post-Graduate students.

While focusing on quality and excellence in education for students, UC puts their discipline and holistic mental, physical and moral growth on top priority as well. As a result, our students are known to be responsible citizens capable of facing the 21st century's challenges in life after the completion of their studies. Our students often develop into 'self-made' glocal (global+local) citizens.

All this is made possible because our expert educators, trained and educated in renowned institutions and universities of Asia, Europe and America in different faculties, lend their helping hands, hearts and heads to our learners as proactively as ever. Therefore, our institution today belongs not only to the local or national level but it also represents the global society with soon to be a QAA certified college by University Grants Commission (UGC) Nepal.

At UC we offer Tribhuvan University affiliate courses such as Bachelor in Business Studies (BBS), Bachelor in Computer Application (BCA), Bachelor in Arts (BA) and Master in Business Studies (MBS) to our students with individual

care for high rate of success in self-managed employability. Thousands of our Unitedian Graduates today have spread in national (local), global institutions, universities and in market economies worldwide. The UC's global growth means our commitments to quality and excellence in education for our new generation with sound discipline in daily life.

Disciplined citizens are 'self-made', who 'Follow the Rule of Law'. So are our Unitedian Graduates. Citizens following the 'Rule of Law' as one of the eight pillars of 'Good Governance' make good nations, first nations and prosperous nations. Our students, parents, guardians and stakeholders have been eyewitnesses or firm believers of 'self-made' citizens for 23 years continuously.

My sincere thanks for being with us till this moment and beyond, lending helping hands, hearts and heads to one another in UC community. As a result, Unitedians are doing exceptionally well in their university exams and in real life practices.

Welcome you all.

Dr Lal Rapacha, Post-PhD
Humboldt Fellow AvH Stiftung &
National Geographic Explorer

WELCOME NOTE

Welcome to United College

Choosing a college, career, and a subject is one of the most important decisions you ever make. It's a decision that shapes your intellectual journey, your professional path, and the person you become. Here at United

College, we are dedicated to providing an environment where your journey is not only successful but truly transformative.

As Program Director, I am proud to be part of a dedicated team of faculty and staff who are committed to creating a student-centered learning environment.

Our academic programs, ranging from Management, Humanities, and Information Technology to Business and Applied Sciences, are thoughtfully designed to meet the evolving needs of today's

competitive world.

Our curriculum blends rigorous Academic Theory with the real-world application, ensuring you graduate not

only with a degree but with the skills, confidence, and vision to lead in your chosen field. The college has customized university curriculum with

international curriculum to meet the global needs.

We prepare students for life not only exams. Our college offers various opportunities for corporate job transformation, entrepreneurship, internships, community engagement, skill-based training, co-curricular activities and extracurricular activities. Through mentorship and a supportive atmosphere, we strive to guide each student to realize one's full potential. A strong emphasis is placed on research and innovation across all departments. Our students and lecturers actively engage in research projects, paper presentations, case studies, and academic publications in collaboration with international universities. The international collaboration provides platforms in the field of research, learnings and jobs opportunities for our students.

Our expert faculty members are dedicated mentors who are committed to guiding you to your success. They will mould you to think critically, solve complex problems, and collaborate with your peers. I am confident that you will find a place where your curiosity can flourish and your potential can be realized.

We look forward to guiding you towards excellence.

Mahesh Aryal Chhetri
Graduate Program Director
United College

ABOUT US

United College, affiliated to Tribhuvan University, is a premier institution dedicated to academic excellence, innovation, and holistic student development. Since its establishment in 2058 B.S (2002 A.D.), United College has been committed to nurturing young minds to become responsible, competent, and ethical professionals. United College (UC) is centrally located at Kumaripati, Lalitpur. The college is established to offer courses in Business, Account, Finance, Management, IT and Humanities through a scientific and disciplined approach. The college is affiliated to Tribhuvan University and runs Bachelor of Business Studies (BBS), Bachelor of Business Management (BBM), Bachelor of Computer Applications (BCA), Bachelor of Arts (BA) and Master of Business Studies (MBS) in an unrivalled environment.

United College strives to empower students with the latest insights needed to thrive in today's competitive world, while nurturing them to be more sensitive, sensible, and responsible. More than just a college in the literal sense, United College embodies a vibrant academic spirit and state-of-the-art infrastructure—both physical and intellectual—equipping students to confidently face the challenges of the times.

Vision: The vision of UC is to become the centre of excellence in teaching, learning, and research in Nepal for being globally fit.

Mission: The mission of UC is to create excellent human resources with intellectual, creative, technical, moral, and practical skills to serve the community, industry, and region. We do it by developing integrated, interactive, involved, and caring relationships among teachers, students, guardians, and employers.

Goals: To equip students with latest insights into the competitive world inclusively by making them more sensitive, sensible and responsible personally, academically, and professionally.

United College

WHY UNITED COLLEGE?

- Team of strong faculty members with effective teaching learning methodology
- International soft-skill and managerial skill development trainings
- Customization of leadership development courses
- Job Placement in corporate sector under College to corporate (C2C) program
- Building entrepreneurship skill under students to entrepreneur (S2E) program
- Investment assistance for excellent business concept
- IT and management non-credit courses
- National and international network
- ECA & CCA programs, visits and tours
- Well-equipped IT labs, library and digital library
- National and international students' exchange programs
- Curriculum-based report writing training from experts
- Industry collaboration
- Workshops and hackathons
- Writing & publication opportunities in college magazine and research journal

BACHELOR OF BUSINESS MANAGEMENT - BBM

Bachelor of Business Management (BBM) is a newly launched 4-year (8 semesters) course of the Faculty of Management, Tribhuvan University. The program has been designed for aspiring business leaders and managers of the future.

The BBM graduates are equipped with the required knowledge, skills, and self-confidence for effective and successful management of organizations within constantly changing and highly competitive local, national, and global business environments. This course has been designed with the objective of producing middle-level managerial manpower in any sector.

OBJECTIVES

- Develop students' skills in creative thinking, decision making, leadership, communications, and gain understanding of operations and change.
- Develop students' understanding of entrepreneurship and innovation, and effective management of business operations in a dynamic business environment.
- Prepare students for professional life to work as business managers and entrepreneurs.
- Enable students to serve the business needs of local, national and global enterprises.
- Enable students to develop leadership qualities and the capacity to work in a team.

CAREER PROSPECTS OF BBM GRADUATES

BBM enables the students to have the fundamental knowledge of banking, finance, and marketing.

This helps them to keep options wide open in the area of business. It further leads to a diverse range of career opportunities since it has a wide variety of elective choices. BBM degree holders can have easy access to jobs in banks and other financial sectors, or institutions, manufacturing industries, service industries, cooperatives, marketing firms, healthcare institutions, academic institutions & government organizations. Students can also go from a small startup enterprise to large firms or create self-employment opportunities.

INTERNATIONALLY ACCREDITED PROFESSIONAL COURSES FROM IBM AND HCL TECH FOR BBM STUDENTS

- Data Analyst
- Professional Accounting
- Digital Marketing
- Website Development

BACHELOR OF COMPUTER APPLICATIONS - BCA

For a detailed course structure scan this QR Code

BCA is the latest & updated IT-related course of 4 years [8 semesters] under the Faculty of Humanities & Social Sciences (FoHSS). BCA focuses on providing a platform for students to develop programming and networking skills and makes them familiar with application packages.

The objective of the program is to produce high quality computer application users and developers. This course contains multi-disciplinary aspects like computerized bookkeeping system, different areas of computing, cyber-crime, computer networking, business communications, production design,

marketing, e-mail and internet, programming, system design and analysis, database administrations, mobile technology, data web technology etc.

After the completion of BCA, graduates are eligible to study in any faculty under Information Technology, such as MCA, MIT, and MBA.

OBJECTIVES

- Demonstrate professional competence in developing software and in the design and implementation of complex computer systems and information systems.
- Demonstrate a substantial understanding of concepts in key areas of computer applications.
- Carry out the required analysis and synthesis involved in computer systems, information systems, and computing applications.
- Demonstrate sound practical skills to address problems that arise from computing systems and applications.

CAREER PROSPECTS OF BCA GRADUATES

Software Developer, Web Developer, System Engineer, Network Administrator, IT Support Specialist, Cyber Security Analyst, Data Scientist, DevOps engineer, IT Project Manager, Business Analyst, Artificial Intelligence/ Machine Learning Engineer, IT Consultant, Blockchain Developer, Big Data Engineer, Data Architect, Cloud Architect, Mobile Application Developer.

INTERNATIONALLY ACCREDITED PROFESSIONAL COURSES FOR BCA

Semester	Courses
Semester I	■ Fundamental of software developments.
Semester II	■ C++ or Web application development
Semester III	■ UI/UX and Digital Marketing
Semester IV	■ Software Development on MERN stack ■ Workshop in software development lifecycle
Semester V	■ Data Science and AI using Python
Semester VI	■ Software development using Java and Spring Boot ■ Internet of Things (IOT), Cyber Security, Ethical Hacking, Big Data ChoSystem
Semester VII	■ Bootcamp on DevOps and CI/CD learning
Semester VIII	■ Cloud Computing ■ Bootcamp on Soft Skills and Project Management

BACHELOR OF BUSINESS STUDIES – BBS⁺⁺

For a detailed
course structure
scan this
QR Code

Bachelor of Business Studies⁺⁺ (BBS⁺⁺), a four-year program, has been accredited by Tribhuvan University. The program aims to produce competent managers in a growing and complex world of business by applying modern tools and techniques in teaching students in the classroom, along with project work. The BBS program is also a springboard for students to study a number of postgraduate degrees, e.g., Master's in Business Studies (MBS), Master's in Business Administration (MBA), Chartered Accountancy (CA), and Associate Certified Chartered Accountancy (ACCA) in universities or institutions of higher studies worldwide.

The curriculum for a four-year BBS degree comprises four separate and distinct course components: A strong foundation in allied areas of business, such as language, economic analysis, legal environment, quantitative methods, and research methods, to prepare graduates

to understand, analyze and comprehend the management concepts, theories and practices.

Core business studies encompassing and integrating all functional areas provide graduates with an appreciation of the diversity and inter-relationship of business and management issues.

This provides opportunities to the students to concentrate in one area of specialization, such as accounting, finance, human resources management, management science, and marketing to provide the graduates with some degree of functional expertise in them.

OBJECTIVES

This program mainly focuses on developing conceptual knowledge of Business and Administration. Its specific objectives are:

- to develop required attitudes, abilities, and practical skills in students.
- to encourage entrepreneurial capabilities in students and to make them effective change agents in Nepali society.
- to develop the necessary foundation for higher studies in management and for careers in management, teaching, research, and consultancy.

Internationally Accredited Professional Courses from IBM and HCL TECH for BBS⁺⁺ Students:

- Data Analyst
- Professional Accounting
- Digital Marketing
- Website Development

BACHELOR OF ARTS - BA

The BA (Bachelor of Arts) program under the Faculty of Humanities and Social Sciences consists of courses like Major English, Rural Development (RD), Sociology, Mass Communication and Journalism, Psychology, and Economics. These courses enable students to have the knowledge of diverse fields in relation to social issues.

PROGRAM FEATURES

- Interdisciplinary and research-oriented teaching
- Practical assignments, fieldwork, and article publication
- Preparation for civil service, NGOs/INGOs, and media

CAREER PROSPECTS OF BA GRADUATES

Journalist, Editor, Social Worker, Policy Analyst, Researcher, Civil Service Officers etc.

MASTER OF BUSINESS STUDIES - MBS

Master of Business Studies (MBS) is a two-year (4 semesters) program of the Faculty of Management, Tribhuvan University. This is one of the most popular degrees in Nepal, and every year a large number of students get enrolled in this program. The course structure of the MBS has been divided into core courses, specialization, and thesis writing.. The course provides knowledge of business strategies, economics, administration, marketing, and management for the students. Moreover, the course enables students to remain up to date with the modern practices and changes in the field of business studies. Moreover, it develops skills in students to take higher-level managerial positions in the private and public sectors. Graduates of the MBS Program can work as a Manager, Financial Manager, Business Analyst, Financial Advisor, HR Manager, Management Analyst, Business Development Executive etc.

For a detailed course structure scan this QR Code

OBJECTIVES

- Equip the students with the required conceptual knowledge of business and management.
- Prepare managers in the functional areas of management.
- Develop knowledge and skills of the business environment with national and global perspectives.
- Encourage entrepreneurial capabilities in students to make them effective change agents in the Nepali society.
- Develop the research capability of the students.

ADMISSION PROCEDURE

ELIGIBILITY

Students applying for admission to the given programs must have fulfilled the following criteria:

BBM PROGRAM

- The SLC (+2) level or equivalent in any stream from NEB or any other Board recognized by NEB.
- Passed the CMAT examination conducted by the Dean's office, Faculty of Management and Humanities, Tribhuvan University.
- Score a minimum GPA of 2.40 or 45% marks in SLC (+2).

BCA PROGRAM

- Successfully completed twelve years of schooling or its equivalent from any university, board, or institution recognized by NEB.
- Pass the Entrance Examination conducted by the Dean's office, Faculty of Humanities and Social Sciences and Management, Tribhuvan University.
- Score a minimum GPA of 2.40 or 45% marks in SLC (+2).

BBS PROGRAM

- 10+2 in Business/Commerce, Science or an equivalent course from the National Education Board or from Tribhuvan University or from another University/Board recognized by T.U.

- Passed with a minimum of 2.40 GPA or 45%.

BA PROGRAM

- +2 level or equivalent in any stream from the National Examinations Board or from other University/Board recognized by NEB.
- Minimum of 2.40 GPA or 45%.

MBS PROGRAM

- BBS program or a Bachelor's degree in any discipline from Tribhuvan University or from any other university recognized by Tribhuvan University.
- Pass the CMAT examination with a minimum 40% marks conducted by the Dean's office, Faculty of Management, Tribhuvan University.
- Secure a second division in Bachelor or equivalent to second division.

SELECTION AND REGISTRATION

Selection of the students will be based on the applicant's previous academic performance, interview and other eligibility criteria for admission.

The list of selected students will be placed on the college notice board. The college grants admission to the successful candidates strictly on merit basis. Only 44 seats are available for admission in BBM, 35 seats for BCA, 40 seats for MBS and 80 seats for BBS.

TEACHING PEDAGOGY

TUTORIAL AND REMEDIAL CLASSES

Many tutorial and remedial classes are free of cost for students to make sure those in need of help can catch up with others.

HOME ASSIGNMENT/ DIRECTOR'S CHAPTERWISE ASSIGNMENT/ PROJECTS

Students are required to complete home assignments as per the teachers instruction and students should do director's assignments after a lesson is over. The assignments are checked and returned promptly. Project should be done as per the university guidelines and college standards.

FIELD STUDY AND EXCURSION

United College frequently organizes field studies and industrial visits to emphasize practical study. Students need to experience the application of their knowledge in the real world and also get some time off from the monotony of classroom learning. The students have to submit a report after such trips.

HAND-OUTS

To support students, subject teachers provide well-prepared handouts, as they remain one of the most effective and practical tools to enhance the teaching-learning process in classrooms.

PARTICIPATORY METHOD

To encourage students' participation in the classroom, students as Tutor Program, Group Discussion and Project Work are conducted. Students are assigned projects relevant to their course requirement. Project work is always highly demanding as students need to demonstrate their ability to experiment, manage time and practice presentation skills.

SEMINAR AND RESEARCH

United College emphasizes involvement of students in research work. The subject teacher as per need recommends the research work. In order to provide further information about the curriculum and give students the opportunity for experiencing real life, United College organizes seminars with experienced managers and researchers.

VISITING PROFESSORS & EXPERTS

United College connects students with global perspectives and real-world expertise through external visiting professors and experts (see lists below). They bring fresh insights that enrich classrooms with cutting-edge knowledge beyond textbooks. Exposure to diverse teaching styles nurtures critical thinking and creativity among students. Our visiting professors and experts bridge academia and industry, preparing graduates for future challenges. As United College advances toward QAA Certification, having SSR approval by the University Grants Commission (UGC) Nepal under Tribhuvan University, these collaborations enhance academic excellence and global competitiveness.

Dr. Shyan Kirat Rai, IT

REAL LIFE PRACTICES

Students are engaged in real life activities aligned with the university course curriculum. After completing a unit, students write a short journal entry on; What they learned, What challenged them and What they enjoyed the most. Internship, apprenticeship and workshop are done to experience the real life activities.

TEACHING EQUIPMENT

Projectors, Audio-Visual Aid, Computers, Video and other necessary equipment are used.

STUDENT AS A TUTOR

The normal routine of attending lectures every day in classes and following them up with

certain hours of study at home more often invites boredom amongst the creative minds of students at Bachelors and Masters levels. In order to make the learning process more interesting, United College introduces a unique class activity called 'Student as a Tutor'.

This is an interactive session inside a classroom, where students are given relevant topics in different subjects related to their syllabus. They prepare the topic(s) and then come in front of the classroom and give a 'lecture' on the particular subject assigned to her/him in the same way as a teacher teaches a subject. The student is also cross-questioned by her/his classmates. This is an effective method of knowledge enhancement with a perfect blend of fun, excitement and learning experience since one can learn a lot (up to 90% as per some claims) while teaching others.

UCEII-2022

United Center for Entrepreneurship, Innovation and Incubation (UCEII-2022) is a center of United College (UC), Tribhuvan University established first to encourage our Unitedian graduate students for increasing the rate of self-employability. Secondly, UCEII works with UAC students, alumni and entrepreneurs to turn their ideas into successful businesses. UCEII's main purpose is to build a leading innovation think-tank and research platform in Nepal exploring innovation and advanced business practices as well as motivate students to start their own business ventures instead of queuing in job markets. Also, UCEII catalyzes and promotes startups, guides and assists in identifying a platform for commercialization of business ideas.

UCEII designates a separate big shared space for incubation with all basic facilities and services to start a company quickly. It offers a shared office model where entrepreneurs can work together under one roof mutually cooperating with each other.

A separate meeting room is provided for discussion with stakeholders, clients and for private business decisions. An open discussion space is allotted for UAC staff and members to track the progress of candidates, brainstorm their work and hold regular progress meetings. Other than this UAC will provide expert counseling and monitoring on candidates' business individually. Also, our graduate students engage themselves in research and publication activities.

To our Unitedian graduates we offer valued amenities and benefits including:

- Seed funding
- Design branding
- Help with business basics
- Intern placement opportunities
- Alumni connect
- Networking opportunities
- Marketing assistance
- Accounting/financial management assistance
- Help with presentation skills
- Connections to strategic partners
- Access to angel investors or venture capital
- Comprehensive business training programs
- Advisory boards and mentors
- Management team identification
- Help with regulatory compliances
- Intellectual property management and legal guidance

Thus, UC is one of the best Business Management and IT Colleges in the Kathmandu valley due to its UCEII as incubator for our Unitedian graduates' innovation in entrepreneurship.

EVALUATION SCHEME

United College is governed by the rules and regulations of TU examinations in its evaluation of students. The college has its own Evaluation System as well. Students evaluation will be made from the following parameters, if any student fails to meet the minimum requirement, such student will be disqualified for board exam (Cited from TU exam rules and regulation).

UNIT TEST

Unit tests will begin in a month after the commencement of the academic session.

TERMINAL EXAMINATIONS

There will be three terminal exams for the annual system whereas two exams will be held for the semester system. The schedule of the exams shall be made available to all students in advance.

SEMINAR, PROJECT WORK AND CASE STUDY

United College evaluates students through seminars, project works and case studies.

ATTENDANCE

All the students should maintain at least 80% attendance to be eligible for the TU board exam. The TU exam

AWARDS & SCHOLARSHIP

The college has been granting scholarships to many of its deserving and needy students to help them continue their education and pursue their goals. The purpose of the scholarship is to maintain high academic quality while also increasing student diversity. The scholarship's main purpose is to increase access to higher education for all segments of society and to contribute to the transformation of society by expanding higher education accessibility in Nepal. If a recipient fails to ensure adequate academic performance and violates the college rules and regulations. The College has the authority to terminate the recipient's scholarship privileges

STUDENTS CAN APPLY FOR THE FOLLOWING SCHOLARSHIP

- Academic Scholarships
- Community Service Scholarships
- Athletic scholarships
- Scholarships based on applicants' Physical Status
- Need-based scholarships
- Employer scholarships
- Talent-based Scholarships

MERIT BASED SCHOLARSHIP SCHEME

Scholarship Categories	Admission Fee	Semester/ Annual Fee	Tuition Fee
College Topper	100%	100%	65%

GPA above 3.20	40%	30%	30%
GPA above 2.80	30%	20%	20%

*Terms & Conditions Apply

THE UNITED COFFEE CLUB

UC has its own cafeteria supplying food and soft drinks to the students. Prices of the food items are reasonable. The café is well furnished and has a clean and healthy environment. It provides boiled and filtered water to students to avoid water-borne diseases or other health risks.

Reminiscent of the quick service dining scene of any Megacities, United Coffee Club is a place where you can enjoy cakes, sandwiches, pies, and hot and cold beverages. It is an amazing space to grab a freshly brewed coffee, freshly prepared bakery items and to socialize with friends.

STUDENT SERVICES

VISITING PROFESSORS AND DIGNITARIES

This is one of the unique traditions at United College. Today, advice and counsels by specialists have become as important as book-based education.

To cater to such needs of the students, we have established a tradition of holding educational seminars where well-known personalities come and deliver lectures at UC premises. The lecturers come from various disciplines – arts, science, commerce, IT, civil service, law and judiciary.

EXTRA -CURRICULAR ACTIVITIES

UC tries to meet the student requirements for extra-curricular activities, facilities for games such as basketball, volleyball, table tennis, futsal, chess and football. Students who aspire to go for various sports tournaments are given special facilities.

Students can also take part in other cultural and educational activities like poetry recitation, dance, music, debate and quiz competitions.

LIBRARY/E-LIBRARY

In UC, a library with necessary texts and reference books as well as an Internet facility is available. Books range from general to textual for providing good reading materials for students. UC has also established an E-library where students can have access to

multiple contents with a potentially infinite number of resources and selections at hand. When students subscribe to e-Library, they can have easy access to appropriate and fun-filled books including read- along books, audio books and e-books.

STUDENT DEVELOPMENT PROGRAM

United College has a separate Department of Student Development that tries to bridge the gap of current academic and professional culture prevailing in the market. Department of Student Development reaches out and collaborates within and outside United Academy Group to provide best opportunities and accessibility for students' development.

Ongoing regular projects under the Department of Student Development are Case Study, Research, Training, Workshop etc.

EXCURSION PROGRAM

United College believes that classroom teaching alone is not sufficient -- so the college organizes excursion programs within and outside the country for students to acquaint themselves with the practical insights.

Upon the completion of the excursion, students are required to submit reports of the program.

JOB PLACEMENT AND HR CELL

The HR cell helps students connect with organizations. The cell welcomes different organizations for ground enrollment of undergraduates who are in the last year of the program and are probably going to graduate towards the end of the academic year. HR Cell invites the prospective organizations to interview our graduates for job placement immediately after they complete their courses. It also provides internship opportunities to students.

PSYCHO-SOCIAL COUNSELING

The Psycho-social counseling department offers students professional counseling on personal conflict situations like exam stress, decision making problems, relationship problems, self-esteem issues, fears and personal obstacles, depressive moods and stressful life events. It offers psychotherapy, academics and learning, career counseling, educational and psychological outreach etc.

COMPUTER AND IT CLASSES

In order to enable the students to cope with the changing technologies, UC offers computer classes to students on a non-credit basis.

Various computer and IT courses are offered to suit the capabilities of the students.

INFIRMARY

Students at UC can utilize the exclusive medical facilities available within the UC. First Aid facilities are on stock for any emergency treatments.

TRANSPORTATION

The college provides transportation facilities to students living in Kathmandu, Bhaktapur and Lalitpur.

UC GRADUATES' EMPLOYABILITY

Since 2002, United College has been producing thousands of Management and IT (Info Tech) graduates with high rates of employability in the job markets. UC graduates are in high demand due to their good culture, discipline and manner they learn to develop at the college.

The Unitedian graduates are highly competent, reliable and responsible in their workplaces, be they Business Tycoons, Researchers and Academics, Medical Doctors and Scientists, Engineers and Planners, Aviation Pilots, Educationists (Principal, Teachers), Policy Makers, Information Technologists, Journalists (in Print, Radio and TV), Lawyers and Advocates, Social Workers and Politicians,

Administrators, Film Makers and Beauty Pageants, British, Nepal Army and Police, and Development Experts.

In order to produce maximally saleable graduates, UC frequently provides seminars and training. UC is always committed to impart quality education beyond regular university curriculum. The College does not only provide the curricular knowledge, but it considers the practical knowledge as well as helping students to cope with the competitive job markets. That is why UC designs skill enhancement packages to enhance the skills and competencies of UC's students.

As a result, our Unitedian graduates are employed in nationally and internationally reputed institutions, companies, NGOs, and INGOs. They are also notable entrepreneurs and business tycoons.

United College frequently organizes interaction sessions with field experts to impart more knowledge to our students. One of such events is the "Banking Career" session where students learn about attitudes, traits, characteristics and leadership qualities of a banker. Students get a chance to interact with Banking field experts and learn from their experiences. Likewise, other events focused on varied fields are frequently conducted to enhance students' knowledge and skills.

UNITED TALENT HUNT (UTH)

As guided by the mission of the United College to make our Unitedian students sound in managerial concepts and skills in performing the managerial activities, the United College has started organizing UTH program in order to bring together all the students under the umbrella of United Academy Group (School, Academy, College, Cooperative and Organic Aiselu Farm). All the present and ex-students of United School, Academy and College are given a space to showcase their hidden talent and skills in various fields. The fields include songs, dance, speech, quiz, and poem. Winners of each event are awarded attractive prizes sponsored by renowned organizations.

STUDENTS' CLUBS & ACTIVITIES

United College (UC) offers student-led clubs for students to explore their interests and develop their soft skills. Being a part of a student club gives students an opportunity to use the lessons and skills they have learnt in class and apply it in real life. Students will gain leadership skills, learn how to communicate and work with diverse groups of people. Students' clubs are responsible to organize social and networking events, help students attend conferences, and sponsoring guest speakers and presentations.

The main objective of the students' clubs is to help our students get ready for the real workplaces. Furthermore, student clubs provide a platform for individuals interested in planning, organizing, and managing various events of United Academy Group. These clubs offer opportunities to develop leadership, organizational, and communication skills while fostering creativity and teamwork. The clubs typically operate within educational institutions and play a significant role in enhancing the overall campus experience by managing academic, cultural, and social events.

STUDENT COUNCIL

The student council is a non-political body and consists of students' representatives. It is nominated by college administration. It has to assist the management team in organizing different extracurricular activities like students' get-together, welcome- farewell program, talk program, and sports. UC believes that students should be given the opportunity for development of individual potentialities.

The Students' Council includes a member representative from each section of BBM, BCA, BBS, BA, and MBS. The Student Council encourages the students to participate in different campus activities. It is also responsible for publishing the tri-monthly Newsletter, Journal (viz. *United Journal of Interdisciplinary Studies*) and Annual Magazine (viz. *United Liminary*) of the college.
