## Principal's Voice

**Golden Sungava English Boarding school** is one of the best academic destination for the children of all age groups. To impart the quality education to the students that fits in 21st century is the final aim of the school management. Every parents/ guardians and the whole society is seeking sound cultured, well disciplined, responsible and dedicated children. We are proceeding ahead to make these dreams true in real life.

We are not teaching subjects. We are teaching children through different project works, multimedia presentation and so on. Besides, blending of oriental culture and western technology is the major tool of pedagogy.

After the devastating earthquake-2072 B.S., we came in conclusion that the tall school building is not safe place for the students. To address the earthquake psychology of the children, we have constructed sophisticated one storey buildings which are fully safe from the quakes and other disasters.

Open play ground, science lab, library, well equipped computer lab, cosy class-rooms are the major attraction of the school. No doubt it blooms the school environment. Sungava school does not only focus on just making the students reach their optimum level of academic performance but also in making the students equipped to face all the challenges that come ahead in their life. To advocate this, we have arranged ECA and CCA programs like music, art, dance, wushu, drama, anchoring, etc.

We have recruited the teachers and staff not only on the basis of their academic excellence but also on their interest of working in this school. Besides, we have prioritized to those teachers who are fond of children and acquainted with modern teaching tools.

Pre- Primary section is the icon of our school. Learn with nature and play and learn are the major tools of teaching in this section. Sharing and caring of children in domestic environment is prevailing factor that makes believe to the parents in Sungava.

I explicit my sincere thanks to the parents /guardians who have believed us since the school establishment to till the date.

It might be the best option to the those parents / guardians who are seeking new school for their children. So, I request you all to visit the school once and make your decision and be assure to the future of your future dreams. Thank you.
